Hi Glenn,

Here is the edited attachment with the full legal facility names from the best data that we have. The current milking + dry column already indicates the current milking + dry.

Hi Cherie,

In order to update our ICIS tracking system, we will have to enter the full (legal name) of each facility. At your earliest convenience, could we get a list of full, legal facility names, i.e. including Inc., partnerships, etc., of the 10 CAFOs we visited?

Also, we assume that the list you provided only represents the number of wet cows. Is there a reason why the dry cow #s were not also included?

Thanks.

Glenn

Hi Glenn,

It was a pleasure having you and Becky out last week.

All the initial information that you need should be attached.

The minor preliminary WQ recommendation is as typed on the attached doc:

"All dairies should add BMPs each Fall to keep manure and sediment out of the creek areas prior to the rainy season."

Thanks!

Hi Cherie,

Thank you for hosting Becky and me in the North Coast during our joint inspections. As always, it was great working with you again.and as always, you provided nice weather for us. Best wishes for continued success. We look forward to receiving your facility inventory and eventual inspection reports. Thanks in advance.

Glenn
